Subject: 1630 ASPECT Update 29 June 2011
Date: 06/29/2011 05:42 PM

ASPECT has completed the data collection over white rock and is currently collecting chem data over the area east of hwy 4. We can not currently get over Las Alamos due to fire fighting aircraft.

We are pulling data and should have some prelims in a few minutes. We will post the prelims on the website. I will send out a notice once we have data up.
